

Our Green Mission

We are of the earth, from the earth and by the earth. Therefore we believe we should give back as much the earth gives to us!

BUILDING:

- Revolution Yoga was recycled out of it's predecessor The Village Book Shoppe. The desk, the shelving, the couch, the moulding has all been recycled from the book shelves' wood. The left-overs were donated and reused so trees did not go to waste.

-Paint is all Low-VOC to No-VOC. VOC's are volatile organic compounds that cause poor air quality (contribute to smog) and lead to many ill health effects on the human system.

-The flooring is bamboo, a sustainable and quickly renewable resource.

SUSTAINING:

-All paper products you find at Revolution are recycled including our advertising materials such as cards, flyers, memos, clip boards, paper towels, toilet paper etc.

-We use eco-friendly cleaning products to promote better air quality and less run-off into our natural systems.

-We try to not only recycle but avoid waste by offering cloth hand towels in the bathrooms. Our blocks are made of cork, another sustainable material, and every thing we sell in our shop is fair trade, natural, and eco-friendly.

EDUCATION:

Revolution Yoga offers classes and workshops on keeping a green lifestyle, we promote non-for profits who offer nutrition and rooftop gardening in schools. And as we teach our students to recognize the connection between themselves and all things, we hope that they will see their connection to the earth and change it for the better. PEACE, LOVE, YOGA

We would like to thank all of those who helped us put Revolution Yoga together with their bare hands, sweat and determination, making it the beautiful welcoming space that it now is...

Lee + Denise!!!,
Melinda, Tara,
Amanda, Christine,
Vanessa, Brett,
Phillip, Carol
